

e-recording with simplifile

E-Recording

E-Recording is the process of recording documents via the Internet that would otherwise be sent by express mail or courier service. With Simplifile, you gain many benefits through e-recording:

- Documents recorded in minutes
- Avoid mailing costs, traffic, and wasted time
- Eliminate check writing expenses
- Increase effectiveness and efficiency
- Shorten the recording gap

How it works

Simplifile is a web-based service where you securely log in, electronically prepare or scan, upload, and submit your documents for recording. The county receives, reviews, and records your documents and returns them to you within minutes.

What do I need?

All you need to start e-recording with Simplifile is high-speed Internet access, Internet Explorer 6 or higher, and a scanner.

Get Started

For more information about e-recording, the Simplifile e-recording service, or for a free demonstration, call Simplifile today at **800.460.5657** or visit us at **www.simplifile.com**

It's now time to

e-record
