I've just returned from ALTA's Federal Conference and have never been more impressed with ALTA staff and leadership! Informative sessions concluded by a day "on the hill" in which we visited with 7 of our state's delegation or their staffs! I was joined by WLTA members Maureen and Jason Pfaff from Olympic Peninsula Title and together we met with Senators' Murray and Cantwell's staff and the staff of

Congressmen McMorris-Rodgers, DelBene and Herrera-Buetler, and met personally with Rep. Kilmer and Rep. Heck. Together we advocated ALTA's position on the CFPB's proposed rule, GFE reform and ALTA's "Best Practices." I strongly encourage you, and each and every member of your organization, to join the Title Action Network (TAN) if you haven't done so already. Simply go to

www.titleactionnetwork.com and join today. Together we can be a unified voice for our industry in the "other Washington!"

What is the WLTA?

The Washington Land Title Association (WLTA) is a non-profit corporation composed of trade professionals that promote high quality land title evidencing and title insurance services in the State of Washington. We actively promote sound and ethical business practices; provide educational opportunities for our membership in all areas of title evidencing and insurance and facilitate effective communication within our industry.

Our Legislative Committee continuously monitors proposed legislation in order to propose, promote and support legislation that meets the high professional standards of the association, and to oppose legislation that does not. We work closely with other professional organizations to promote these aims.

Formed in 1905, principal membership is composed of national title insurance underwriter companies and independent agents, as well as

affiliate members including professionals and vendors from related fields of endeavor. Governance is by a Board of Directors comprised of underwriters and agents and an elected President and Vice President.

Members also participate in an active committee structure covering areas of interest such as: Agents, Legislative, Judiciary, Customer / Community / Insurance Commissioner Liaison, Indian Affairs, Publications and Training & Education (including an Examiners Manual).

The exclusive rights given to a member include:

- the right to access the Examiners Manual,
- the right to be listed as an members on the WLTA website,
- the right to receive newsletters,
- the right to attend the seminars and conventions at member rates,

The 2013 Legislative Results for the WLTA

The regular session of the Legislature comes to a close on April 28. This interim report describes three Bills that have been signed by the Governor. All these statutes become effective on July 28, 2013.

Escrow Reconveyance Authority (Reconveyances)

SHB 1435

Clarifying agency relationships in reconveyances of deeds of trust.

House 3/11; yeas, 95; nays, 0

Senate 4/15; yeas, 48; nays, 0

May 1 Signed by Gov. Inslee

This Bill amends a statute to provide additional procedures to ensure the release of a Deed of Trust after it has been paid in full. [RCW 61.16.030](#) is unchanged that the Beneficiary has 60 days after receipt of payoff to complete the Deed of Reconveyance. The first new alternative is provided by expanding [RCW 61.24.110\(2\)](#). After the initial 60 days, if the reconveyance is not done, an escrow agent that paid the indebtedness pursuant to a payoff demand is authorized to request the Trustee of that Deed of Trust to sign and record the Deed of Reconveyance. The second new alternative is provided by [RCW 61.24.110\(3\)](#). If the Beneficiary and the Trustee have not acted 120 days after the payoff, that escrow agent may record a Declaration of Payment and give notice to the

Beneficiary and the Trustee. If no Notice of Objection is recorded within 60 days from the Declaration of Payment, then the lien of the Deed of Trust expires. The new escrow agent authority applies to attorneys, title companies and independent escrow companies in Washington and becomes effective as of July 28, 2013.

Reporting Title Company Costs

HB 1035 [SB 5269]

Addressing title insurance rate filings.

Sponsors: Representatives Kirby, Ryu, Nealey

House 3/7; yeas, 93; nays, 4

Senate 4/12; yeas, 48; nays, 0

Apr 25 Signed by Gov. Inslee

This new statute was sponsored by the WLTA. It requires the Insurance Commissioner to designate a neutral “statistical reporting agent” to act for the Commissioner to gather information about title company income and expenses. Thereafter, by May 31 of future years, each title insurer and title company agent will provide information to the statistical reporting agent. Then that company will compile the information to present a confidential report to the Commissioner. The Commissioner will thereafter utilize that report to analyze requests by title insurance companies for approval of title insurance rates.

Redemption Procedures

SB 5541

Concerning the redemption of real property.

Sponsors: Senators Hobbs, Fain, Hatfield, Harper

Senate 3/11; yeas, 47; nays, 2

House 4/9; yeas, 93; nays, 0

Apr 23 Signed by Gov. Inslee

This statute allows a prior lender to redeem after the judicial foreclosure of a homeowner’s association lien. Due to the super-priority given by [RCW 64.34.364](#) to condominium HOA liens, the prior mortgage lien is junior to the homeowner’s association lien for six-months of prior assessments. This reverses the *Summerhill* decision [[166 Wn.Ap. 625 \(2012\)](#)] that denied redemption by the lender because its lien was not subsequent in time. As of July 28th the statute will allow redemption by parties subsequent in lien priority.
